

Swylite Corporation Releases New Sleek Black Color On Entire Product Line

May 3, 2009, Winter Park, FL - Swylite® announces that all current models of their innovative Digital Wall Switch Timers are now available for immediate shipment in sleek Black color. The devices are single or dual event 24-hour flush mounted digital wall switch timers for residential and light industrial use that control indoor and outdoor electric lighting (including low wattage CFL and LED bulbs) and devices while providing added security and helping to save energy.

Swylite Corporation's slogan "Today's Technology, Yesterday's Simplicity" challenges the overly complicated high-tech gadgetry world by incorporating the latest state-of-the-art components and features in a simple, easy to use device with no motors or gears.

Randy Morrison, President, commented "This extension of our product line complements the various color schemes in contemporary residential and commercial buildings and will further extend our reach within the marketplace. As the year progresses we will be working on other new and innovative devices for making life easier and safe while saving energy. "

Swylite Corporation designs and builds lighting and energy control devices for residential, commercial and light industrial automation. For more information, call 407-673-6544 or visit www.swylite.com.
